Compiled on Mon Sep 5 22:15:53 2016.

Mao Zedong was the founder of the Communist Party of China and the People's Republic of China. He originally was a peasant farmer who joined the Revolution Army and took down the Qing Dynasty.

After the Chinese Civil War, Mao declared China a communist state. His victory is not well-liked because he made his people march across China for 7,000 miles. The Long March killed many communists.

His reign included: *labor camps* starving 40 million people \*weird thing for color red (Red Guard, Little Red Book)

He started to lose power when: 1. The famine made everyone mad 2. He shut down schools and replaced with hard labor 3. He opened China up to the world by meeting President Nixon
